COMPUTATIONAL PROTEOMICS AWARD NOMINATION FORM

THE GILBERT S. OMENN COMPUTATIONAL PROTEOMICS AWARD recognizes the essential nature of computational methodology and software in proteomics. Specifically, this award acknowledges the specific achievements of scientists that have developed bioinformatics, computational, statistical methods and/or software used by the proteomics community, broadly defined. The award is named in honor of Gil Omenn, a US HUPO Past President, leader of the Human Proteome Project, and influential proteomics researcher. The award recipient will be honored at the US HUPO annual conference with a commemorative plaque and cash award of \$2,500, and will present an award talk on Tuesday morning.

Nominations and Self-Nominations are both accepted and encouraged. Deadline is October 31.

ELIGIBILITY

- Nominee must be a current US HUPO member.
- Independent scientists at all career stages are eligible.
- The awardee must be available and plan to attend the annual conference to receive the award and present talk.
